Note on Returns

Back-tested returns are for illustrative purposes only. Period: Jan 2004 to Sept 2014. (See appendix 1) Actual returns and back-tested returns are not necessarily indicative of future performance.

Strategy

Signal Long Term Growth consists of an asset allocation portfolio with an allocation wholly on high growth assets.

Benchmark

The Benchmark is the market value-weighted average return of funds in the South African Multi Asset High Equity (ZAHE) category.

Total Expense Ratio

TER (VAT excl) 1.45%
 TER has been calculated on a rolling 12 month basis. A higher TER does not necessarily imply low returns, nor does a high TER imply high returns. The current TER is not necessarily indicative of future TERs. The TER includes the Signal Asset Management fee.

Investment Methodology

Our Asset Allocation Model is a rules based methodology that buys and sells best-of-breed Unit Trusts across a number of asset classes, namely: property, bonds, fixed income, cash, equity, offshore and alternative investments. We work on the principal that all asset classes revert back to their longer term mean (reversion to mean) and a rigid rebalancing process takes place when asset classes and mixes within asset classes get out of sync. This results in achieving good long term growth whilst mitigating risk. We comply with the statutory investment limits set for retirement funds in South Africa (Regulation 28).

Firm Overview

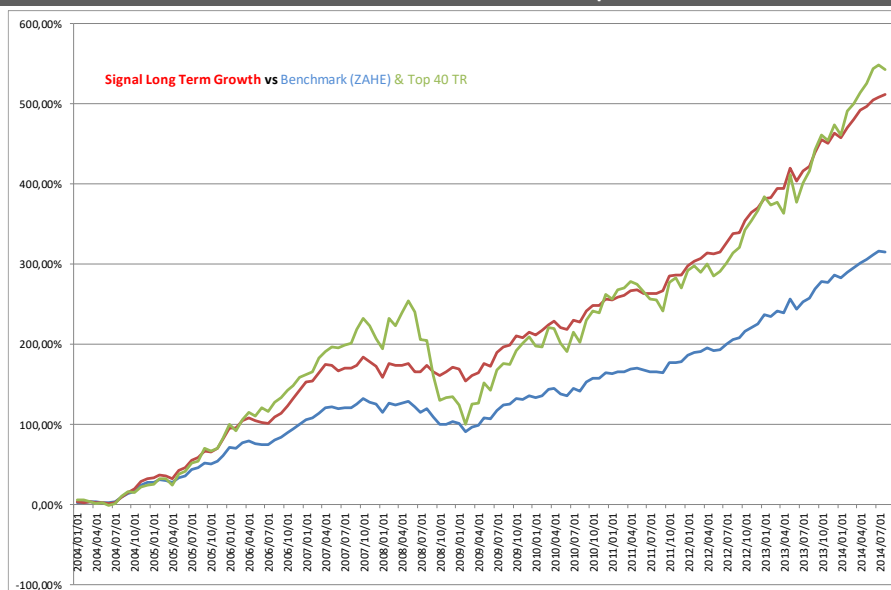

Signal Asset Management (Pty) Ltd is authorised and regulated by the Financial Services Board in South Africa. Authorised Financial Services Provider No. 30893. We are a fund manager serving the investment needs of institutions, independent financial advisors (IFA's) and investors. Our investment strategies adhere to the common principles of strong risk management, transparency and liquidity. Our goal is to deliver long term risk-adjusted returns with a low correlation to other major asset classes. With our office based in Cape Town, South Africa, Signal Asset Management has invested significant resources in the people and infrastructure to meet today's requirements of institutional investors. Signal Asset Management was formed in 2007 by Alan Amler who has over 25 years of experience in fund and business management.
